About G2 Intelligence

Advancing the Business of Diagnostic Medicine

G2 Intelligence provides timely, accurate and trusted analysis of industry and market trends, legal and regulatory developments, and technology and innovation that directly affect the operations, financial performance and competitive position of diagnostic testing laboratories and related medical services providers.

Formerly known as “Washington G-2 Reports”, the company has covered and reported on the diagnostic industry for over 30 years. G2 Intelligence delivers topical and analytical periodicals, proprietary research studies, and custom advisory services, and through live and virtual events, facilitates industry meetings and information exchanges.

Our mission is to deliver relevant, meaningful and actionable findings on diagnostic industry markets related regulatory changes and lab operations. The organization strives to exceed client expectations and develop mutually beneficial relationships with industry leaders and influencers.

G2 Intelligence is a division of Kennedy Information, LLC, a leading provider of professional markets analysis.

Information on other G2 Intelligence products and services can be found at www.G2Intelligence.com.
